Director's Notes

Run

The last Syttende Mai Run and Walk of this millenium seemed to go without a hitch. A slightly warm, but beautiful spring day escorted all participants and volunteers through the 27th Annual 20 Mile Run and 13th Annual Walk.

Though no records were set in any categories, impressive wins by David Williams and Kit McCaffrey helped keep the strong tradition of this road race intact. A huge thank you for those of you who consider the Syttende Mai Run a true rite of spring, including, but certainly not limited to: Paul Croissant, Peter Senzig, and Dick Voight; who have completed all twenty seven runs.

The year 2000 will also bring a new director for the Syttende Mai Run and Walk. Paul Miller, who has worked as the finish area coordinator, has agreed to allow me to retire after twelve years. On that note, I would like to thank all the key people who volunteer their time and energy to help put together one of the premier running events in this area. Some of these people are listed in the credits, but there are so many more.

The entry forms are included in this booklet, fill it out, send it in, and start training for Syttende Mai 2000. Nice shirt!!

Walk

Participation by walkers continues to be an important part of the Syttende Mai Run and Walk tradition. This year weather was very cooperative with a nice breeze to keep everyone cool.

Many thanks to my faithful volunteers and the Volksmarch people, who allow this event to be possible.

The Syttende Mai Walk is a great opportunity to experience our scenic course from Madison to Stoughton. Set a goal for the new millenium; join us in the walk!

Thanks,
Steve Swenson

Medical Self-Care for Beginning Runners

“Wanna-Be” Syttende Mai Runner/Walkers, Free seminar Tuesday, February 29, 2000. Call 873-6611 for reservations. See front cover for more information.

Training and Preparation: You should be able to run at least 10 miles at 10-12 minutes per mile pace to finish this race. If you eat before the race, eat a light breakfast at least 3 hours before starting time. Drink about 8 oz. of fluid one hour before. Start warming up (stretching and jogging) about 30 minutes before the run.

CAPITOL SQUARE

START Temperature is a critical factor. Significant heat injury may occur at all temperatures, but particularly above 60° F, wear only light athletic clothing (shorts, t-shirt or tank top). As the temperature increases above 60° F, your pace should be reduced. For example, at 80° F, beginning runners should run at least 1 minute per mile slower.

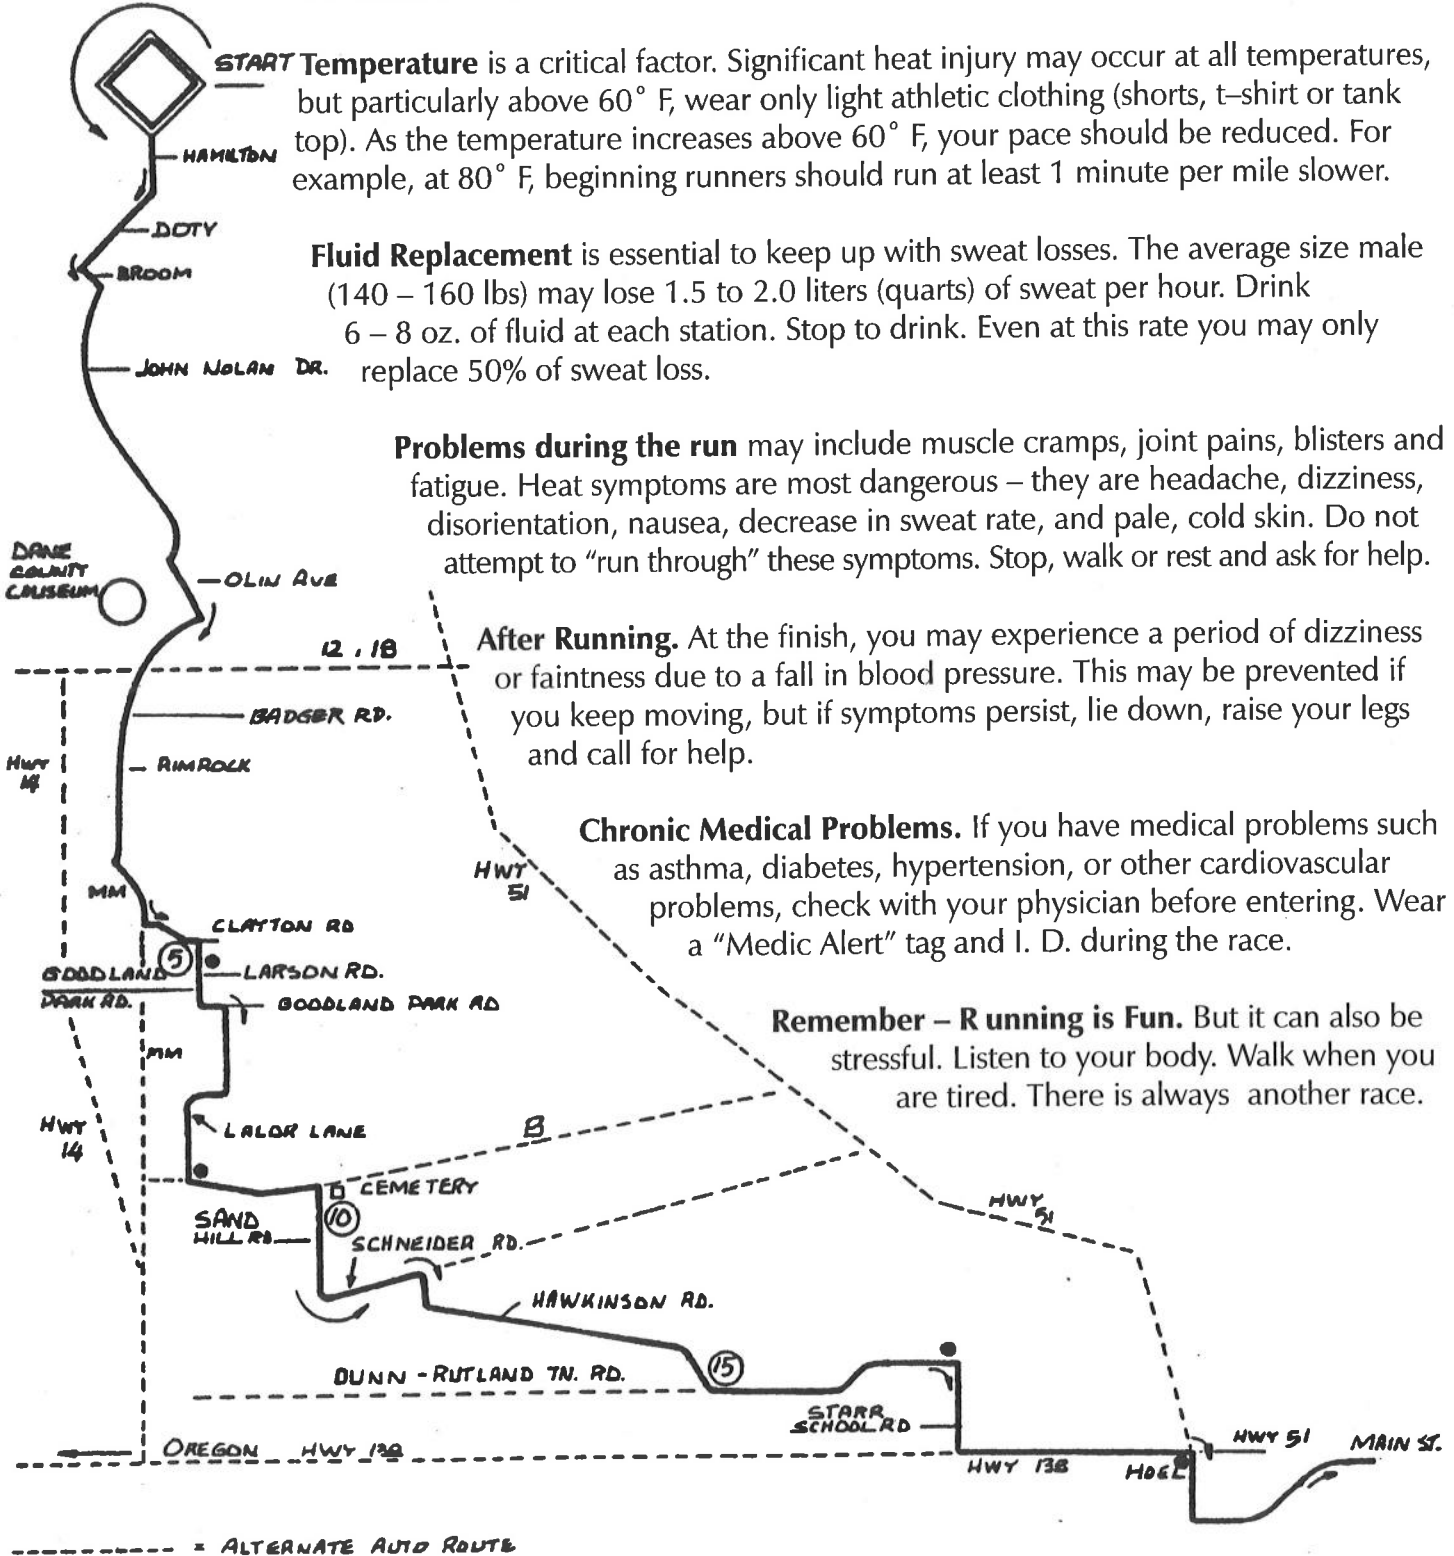

Fluid Replacement is essential to keep up with sweat losses. The average size male (140 – 160 lbs) may lose 1.5 to 2.0 liters (quarts) of sweat per hour. Drink 6 – 8 oz. of fluid at each station. Stop to drink. Even at this rate you may only replace 50% of sweat loss.

Problems during the run may include muscle cramps, joint pains, blisters and fatigue. Heat symptoms are most dangerous – they are headache, dizziness, disorientation, nausea, decrease in sweat rate, and pale, cold skin. Do not attempt to “run through” these symptoms. Stop, walk or rest and ask for help.

After Running. At the finish, you may experience a period of dizziness or faintness due to a fall in blood pressure. This may be prevented if you keep moving, but if symptoms persist, lie down, raise your legs and call for help.

Chronic Medical Problems. If you have medical problems such as asthma, diabetes, hypertension, or other cardiovascular problems, check with your physician before entering. Wear a “Medic Alert” tag and I. D. during the race.

Remember – Running is Fun. But it can also be stressful. Listen to your body. Walk when you are tired. There is always another race.
